

Smartphone Contact Verify App

Alex Aldridge, Canada

April 11, 2023

Concept

Smartphone or web app that searches for publicly listed phone numbers on Google and sends information to your smartphone or email address.

Usage

Purchase the app from Google Play and customize the settings for your smartphone. Receive text message and emails from the app after each phone call. This app can be used professionally and personally with any smartphone.

Example

Recent contact verified with Google.

Incoming call or text:
(647) 822-6707

Tim Hortons
1818 Dundas St E, Whitby, ON L1N 2L4

Optional data:

Call time: 0:00 AM/PM
Call date: DD/MM/YY
Hours: Closed / Open
Rating: 1-5 stars
Reviews: Total number

Summary

This mobile application idea was inspired by simple and everyday smartphone usage. This app idea is very useful and it can easily be developed and used with current and future smartphones.
